

MARK REIZEL VINCENT C. PALMA

FULL-STACK SOFTWARE ENGINEER

Las Piñas City, Metro Manila, Philippines • binssente@gmail.com • [+63 915 805 7972](tel:+639158057972)

Portfolio: mrvcp-portfolio.vercel.app

PROFESSIONAL SUMMARY

Full-Stack Software Engineer and **Magna Cum Laude** Information Systems graduate with 2+ years of production experience architecting end-to-end web applications, internal enterprise ERPs, and automated transaction platforms. Combines hands-on development in React, Next.js, Laravel, PHP, and PostgreSQL with a specialized Cisco cybersecurity background in network defense and threat management. Proven track record collaborating in small engineering teams and shipping resilient civic-tech software.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, PHP, Python, SQL, HTML5, CSS3
- **Frontend:** React 19, Next.js, Vue 3, Vite, Tailwind CSS, Framer Motion, Bootstrap, Responsive UI/UX
- **Backend & APIs:** Laravel 11, Django, FastAPI, Node.js, RESTful APIs, WebSockets (Socket.io), Sanctum, PHPMailer
- **Databases & BaaS:** PostgreSQL, MySQL, Supabase, Redis, AWS S3, Prisma ORM, Query Optimization
- **Cloud & Hosting:** Vercel, Render, Hostinger, Docker & Docker Compose, Linux, Nginx, CI/CD Actions, Git/GitHub
- **Cybersecurity & Systems:** SOC Operations, Incident Response, Network Defense, Threat Intelligence (CVSS), Endpoint Hardening, Cisco IOS
- **AI & Tools:** Claude, Google Gemini, CodeRabbit, Groq AI, Microsoft AutoGen

PROFESSIONAL EXPERIENCE

Software Development Associate

June 2026 – Present

AAA and Co., CPAs

Metro Manila, Philippines

- Architect and maintain the Gamma Oracle Project Management & Cost Control platform, streamlining internal audit workflows, financial reporting, and project cost tracking for accounting teams.
- Implement atomic database transactions and strict access controls to prevent data discrepancy across multi-tiered corporate ledger allocations.
- Collaborate with certified accountants and senior partners to translate complex statutory compliance requirements into automated operational dashboards.

Software Engineering Intern

February 2026 – June 2026

Gamma Oracle Dimension Inc.

Metro Manila, Philippines

- Co-developed the official educational web portal for **Tax Leaders Circle PH (TLC.PH.online)** alongside a fellow developer intern, servicing accredited accounting seminars nationwide.
- Engineered an automated certificate generator using FPDI/FPDF and a digital tax publication reader using PDF.js and Turn.js with realistic flip-book navigation.
- Initiated the core development of **BizMaker HRIS ERP**, transitioning payroll workflows into a scalable cloud SaaS application with automated tax calculations and timesheet synchronization.

Freelance Full-Stack Developer

January 2024 – Present

Self-Employed / Independent Contractor

Las Piñas City, Philippines

- **Michael Anthony's Fashion Inc. (MAFI):** Automated manual paper invoices and Delivery Receipts (DR) into structured digital records, cutting invoicing errors and administrative overhead.
- **Galaxent Perfume:** Designed and deployed an attendance logging and payroll calculation portal for retail personnel, reducing manual bi-weekly time reconciliation.
- **Bubble Hideout POS:** Engineered a standalone restaurant point-of-sale and live inventory management system in PHP/MySQL, eliminating dinner-rush order latency and automating daily cash-out reports.
- **STI OMMA Platform:** Built a production-ready community showcase portal for STI College multimedia artists featuring AWS S3 media uploads, Xendit payment gateways, and real-time chat.

KEY PROJECTS & HACKATHONS

eGovPH National Hackathon 2026 — Team Lead / Developer

July 2026

Department of Information and Communications Technology (DICT)

SMX Aura, BGC

- Led 5-member team "PrintIn New Gen" in a 48-hour civic-tech sprint developing verification prototypes atop official government infrastructure (eGov Single Sign-On, eVerify, and eGovPay APIs).
- Designed client-facing authentication flows and interfaced live with sandbox government identity verification endpoints.

MAFI 3D Custom Clothing Platform — Capstone Project Lead Developer

2025

Michael Anthony's Fashion Inc. / DFCAMCLP

Las Piñas City

- Led a year-long capstone converting a traditional garment manufacturer's manual sketching bottleneck into a browser-based 3D visual tailoring customizer.
- Allowed real-time collar, fabric, and trim configurations that generate production-ready specifications directly for pattern cutters.

CND Upaze — Lead Full-Stack Architect and Developer

2026

Technopreneurship

Academic Project

- Architected an enterprise SaaS application uniting a React 19 frontend and a decoupled Laravel 11 protocol core, packaged in Docker for isolated local and staging environments.
- Integrated Groq AI for automated inference and telemetry visualization dashboards for administrative order governance.

EDUCATION & LEADERSHIP

Bachelor of Science in Information Systems (BSIS)

2022 – 2026

Dr. Filemon C. Aguilar Memorial College of Las Piñas (DFCAMCLP)

Magna Cum Laude

- **Graphic Artist Society:** Elected Auditor (2025 – 2026); served as Level Representative (2023 – 2025), coordinating campus creative workshops and managing organizational inventory.

High School Diploma — TVL-ICT Track

2016 – 2022

De La Salle Santiago Zobel School – BRafENHS

Muntinlupa City

- Senior High School Technical-Vocational-Livelihood (TVL-ICT Track, 2020–2022) • Junior High School (2016–2020).

CERTIFICATIONS & ACCREDITATIONS

- **Junior Cybersecurity Analyst Career Path** • Cisco Networking Academy (2026)
- **Cyber Threat Management** • Cisco Networking Academy (2026)
- **Network Defense** • Cisco Networking Academy (2026)
- **Endpoint Security & Introduction to Cybersecurity** • Cisco Networking Academy (2026)
- **Networking Devices & Configuration** • **Network Support** • Cisco Networking Academy (2026)
- **AI Fundamentals: Foundations for Understanding AI** • IBM SkillsBuild & Cisco (2026)
- **Data Science Essentials with Python** • **Data Analytics Essentials** • Cisco (2026)
- **Python Essentials (1 & 2)** • **JavaScript Essentials (1 & 2)** • Cisco & OpenEDG (2026)
- **Intellectual Property Rights for Freelancers** • DICT Region 2 (2026) • **Cyber-Shield** • DICT Region 8 (2026)
